CS301 (Barsky, Harvey)

Fall 2009

Feedback From Students – due Oct. 16

Homework 3

Name: _____

Get feedback from your students about what they like and don't like about your section. You can do this with Survey Monkey (http://www.surveymonkey.com/), Google Forms (http://docs.google.com/) or a simple paper survey. You might just hand them a note card and have them write one answer on the front and one answer on the back.

Suggested questions

- List two things that you like about section.
- List two things that you think could be better in section.
- How would you describe the pace of section? Too fast? Too slow?
- Do you feel comfortable asking questions in section?
- Do you feel comfortable answering questions in section?

Below (or on a different piece of paper) write 3 things you learned from surveying your students and your intended response to their feedback.
