

### Using the new CDE window manager:

also see </usr/pub/XWindows.help>

June 1997

---

To use your <b>.xsession</b> ...	add the line " <b>SESSIONTYPE=xdm</b> " to your <b>.dtpprofile</b> (CDE does not read the old <b>.novue</b> file)
To get a shell window...	click on the up-arrow on the dashboard, select "Terminal", or click on the File menu on the File Manager, select "Terminal"
To logout...	click on "Exit" on the dashboard, <b>wait a moment</b> , then click on "Continue Logout"
