BUSTING THE KING'S GAMBIT

The popular opening 1. e4 e5 2. f4 exf4 refutes the “formerly popular opening”. He “strongly solved” it using ~3,000 cores powered by the IBM Watson team, and finds out that there’s only ONE move that draws for white 3. Be2; every other move “loses by force”. (they consider a game in which a person is down by 5.12 points to be a loss)

Today

- Review useful HOFs

- map** Reporter **over** List

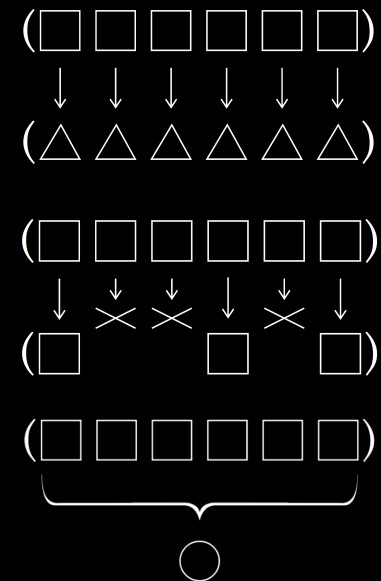

- Report a new list, every element E of `List` becoming `Reporter(E)`

- keep items such that** Predicate **from** List

- Report a new list, keeping only elements E of `List` if `Predicate(E)`

- combine with** Reporter **over** List

- Combine all the elements of `List` with `Reporter(E)`
 - This is also known as “reduce”

- Acronym example

- keep** \rightarrow **map** \rightarrow **combine**

- The script, run and launch

- For each

- Compose example
