Programming vs Computer Science
Is CS 3 what it will be like?

You shouldn't do it for the money... but

- Starting salary
  - B.S. ~$59,000 (Berkeley Career Center)
  - M.S. $60,000 - $100,000 (Berkeley EECS)
  - Ph.D. $40,000 - $120,000 (Berkeley EECS)
Environment

What is the work environment like?
static int GetDestinationRow(int col)
{
    int row = 0;
    if (!IsColInRange(col))
    {
        // Dora is walking off the edge of the world to end this round
        return 0;
    }
    for (row=0; row<BLOCK_NUM_ROWS; ++row)
    {
        if (pAnimalRescueGameData->collisionMask[row][col] > 0)
        {
            return row;
        }
    }
    return row;
}
Interviews

• Most of the content comes from cs61b – Some of it doesn’t even have to do with CS!
• You won’t be able to answer the question immediately
• Be a lab assistant
• Sign up for interviews with the career center
• Go to job fairs

Questions?
