Welcome to CS 301!

Teaching Techniques for Computer Science
Fall 2010

Friday 4:10-5:30 p.m.
405 Soda

Instructor: Brian Barsky barsky@cs.berkeley.edu

TA: Colleen Lewis ColleenL@berkeley.edu

Class webpage: http://inst.eecs.berkeley.edu/~cs301/

Welcome to CS301!

Attendance/Timeliness

We hope that this course will be a community that supports you in improving your teaching. To effectively build this community, attendance from the members of the class is very important. You may not miss more than 2 classes. Please email Colleen if you need to be excused from a class because of a conference. If you need to miss more than two classes this semester for unexcused reason (non-conference/non-school related) you should work with Colleen to devise a make-up assignment. Class starts at 4:10 p.m. and two tardies will be counted as an absence.

Grades

You can check your grade and records of your attendance and homework submissions on BSpace. Please email Colleen if you notice a mistake.

Homework

The point of homework is to be helpful to you in your teaching. If you feel that an assigned homework assignment is not appropriate for your teaching context, please discuss it with Colleen before the homework deadline. We don’t want you doing homework that is not helpful and we are happy for you to do something that you think will be more appropriate. Although homework deadlines are generally flexible, all homework must be completed before the last day of the semester.
