Welcome to CS 301!
Teaching Techniques for Computer Science
Spring 2011

Tuesday 4:10-5:30 p.m.
405 Soda

Instructor:  
Brian Barsky barsky@cs.berkeley.edu  
TA:  
Angie Little little@berkeley.edu

Class webpage: http://inst.eecs.berkeley.edu/~cs301/sp12

Welcome to CS301!

Attendance/Timeliness

We hope that this course will be a community that supports you in improving your teaching. To effectively build this community, attendance from the members of the class is very important. Please email Angie if you need to be excused from a class because of a conference. Class starts at 4:10 p.m. and two tardies will be counted as an absence.

Grades

Each class attendance counts as 2 points, homework assignments range from 1 to 3 points. To pass the class you may only be missing 4 points. If you expect to miss more than 4 points in this course you should work with Angie to devise a make-up assignment.

You can check your grade and records of your attendance and homework submissions on BSpace. Please email Angie if you notice a mistake.

Homework

The point of homework is to be helpful to you in your teaching. If you feel that an assigned homework assignment is not appropriate for your teaching context or could be better completed at a different time, please discuss it with Angie before the homework deadline. We don’t want you doing homework that is not helpful and we are happy for you to do something that you think will be more appropriate.
