HOMEWORK 0

Name: _____

E-mail address: _____

This is a mandatory assignment: fill in both sides of this handout. Please take a spare photograph of yourself – preferably color – and tape (*don't staple*) it below. If you have no copies, you may color-photocopy a photo on this page. If you have no photos of yourself, perhaps you can get a friend with a digital camera to take and print a nice "headshot" of you. If you don't have access to a color printer, there are many copy shops around where you can get a photo printed if you bring in a JPEG on a memory stick.

Turn this in with the paper copy of homework 1.

Now, turn this sheet over and fill the bio on the back.

MINI-BIOGRAPHY

Classes can sometimes feel so impersonal! We created this mini-biography so we may get to know each other a little better. The staff will answer them too; their answers will be available on the class website.

Even though this will be kept confidential (only the teaching staff will see your answers), you don't have to fill in anything you don't wish to.

Where did you grow up? What was your academic path?

For example, did you live in the same town all your life or did you move around. If so, where? Did you go to community college or another school before this school?

How much programming have you done, and in what languages?

What are your hobbies?

What are some of your talents and skills?

Have you done anything remarkable? Has anything really memorable happened to you?

For example, travel, climbing Kilimanjaro, meeting famous people, 15 minutes of fame, overcoming adversity or illness, inventions, and so on.

What commitments will be consuming your cycles this term?

For example, classes, part-time jobs, family, long commutes, volunteering, sports, or student groups (indicate your association – whether president, member, founder, or otherwise – and whether the group is informal, official, intramural, varsity, or otherwise).
