Final Syllabus

Text of OWN:
OWN Chapters 1 through 11 inclusive.

Lectures:
All lectures, except the lecture of Monday Dec 6 (which discussed wavelets and controllers built as hybrid systems) and the last portion of the lecture of Wednesday Dec 1 (which discussed Butterworth and Chebyshev filters).

Homeworks:
Homeworks and solutions 1 through 12 inclusive.

Demos:
Demos and solutions 1 through 14 inclusive.

Text of LV:
You can use LV as supplementary reading. The content on which you will be examined is what is contained in the OWN chapters, lectures, homeworks, and demos listed above.

Additional material:
All lecture notes posted on the web (except the one for the lecture of Monday Dec 6), Midterm 1 and solution, Sample Midterm 1 and solution, Midterm 2 and solution, Sample midterm 2 and solution, Sample final and solution.
