

## Week 7 Student Checklist

- Review the overall Process Flow.

This can be found in bcourse: Files —> Lab Materials —> Overall Fabrication Process Flow [Current Semester].pdf

- Read the detailed Process Flow for week 7: Metallization.

The purpose of this step and the link to the previous week's lab section should be understood.

- Read the manual for the Aluminum Evaporator manual.

The manuals are available in bcourse: Files —> Lab Materials —> “Lab References”
