

This homework is due August 30, 2016, at Noon.

This homework is simply administrative, meant to collect some basic information, and make sure you are comfortable with submitting homework and running iPython notebooks. Actual homeworks will start next week.

1. Account Setup If you haven't already done so, please login to your instructional account (using your account form), register yourself, and update your password. Please also practice submitting the dummy homework, as described in the above instructions.

2. Background

- (a) What is your name?
- (b) Tell us about yourself. Where are you from, what are your hobbies, etc.
- (c) What about being at Berkeley most excites you?
- (d) What would you like to learn from this course?
- (e) What would you like to learn from courses in the EECS department before you graduate?
- (f) What is a technology that you would like to see invented in the next ~ 20 years? What might be needed to realize this?
- (g) Tell us about your academic background. What math and physics courses have you taken in high-school?
- (h) What platform do you use (Mac/Linux/Windows)?
- (i) In your opinion, what is the reason behind the iPhone's success?
