Homework Policy

• **Collaboration**: Discussions about homework are allowed and encouraged, but each student is expected to write his/her own solutions.

• **Self-Grading**: Students will make a photocopy of each assignment for self-grading and future reference. One copy will be turned in at the beginning of lecture on the due date. The solutions will then be posted to bspace (https://bspace.berkeley.edu/) after lecture, and the students will use the second copy to grade their own assignment.

You can earn 3 possible scores for a problem: 0, 0.5 and 1. If your solution is entirely correct, you get 1 point. If your solution is more than 50% correct on a single-part problem, or if you solve at least half the parts entirely correctly for a multi-part problem, you get 0.5 point. Otherwise you get 0 for the problem.

We will periodically grade the submitted copies and check for inconsistencies with the self-graded scores. Please note the department policy on academic dishonesty: http://www.eecs.berkeley.edu/Policies/acad.dis.shtml

• **Score Submission** After grading each assignment, students will submit their score to sameeronnet@gmail.com. The solutions will contain the deadline for submitting the self-graded score.

The subject line of the email should be in the following format:
EE225HomeworkX (where X is the homework assignment number). The body of the email should include the name, student ID number, total score, and a vector of scores for the individual problems. Please put only spaces between the scores for each problem, i.e. no commas, no semi-colons, no new-lines.

Example of a student submitting the self-graded score for Homework 1, in which there are 6 problems.

Subject: EE225Homework1

Body of email:

Name: First Last
SID: 12345678
Total: 4.5
1 0.5 1 0 1 1
