

Lecture 1w: Admin & OverviewLecture 1: Admin & Overview

- Announcements:
- EE C247B/ME C218: Introduction to MEMS Design
- Instructor: Prof. Clark T.-C. Nguyen
- -----
- Lecture Topics:
  - ↳ 1<sup>st</sup> Day Handouts
  - ↳ Definitions for MEMS
  - ↳ MEMS roadmap
  - ↳ Benefits of Miniaturization
- -----
- Today, basically go through
  - ↳ 1<sup>st</sup> day handouts
  - ↳ Lecture Module 1
- Pass out computer accounts
- -----
- This class will be recorded for the MAS-IC program, which is an online Masters Degree that our department is offering
- There will be lights and cameras and this is why we must be in this room
- In the past, this course was recorded as EE C245/ME C218 by ETS, and previous offerings are on <http://webcast.berkeley.edu/>
- We will try to also make lecture available for this instance, although ETS will not do the recording
- -----
- How many have taken EE 247A? - less than half
- What is a good time for the discussion? M 5-6 p.m., will announce room
