

SanDisk® Computing Lab

199 Cory

199 Cory is an instructional computing and collaboration lab available to all students in EECS classes. A generous donation from SanDisk (www.sandisk.com) renovated the lab and its vicinity in April 2014. Inside:

- 8 new PCs (Intel NUCs, 16GB RAM, Windows, EECS domain)
- A large LCD display for use with your own portable device
- Comfortable seating for laptop users and groups
- Wireless and wired AirBears network for your laptop
- Printers (and a flatbed scanner, coming soon)

Cardkey access (for evenings & weekends) is issued automatically each semester to all students in EECS courses.

Managed by:

Instructional Support Group (ISG)
378/384/386 Cory, 333 Soda
