

Invite your friends to take CS10 next sem!

The Beauty and Joy of Computing

Calendar? **Lecture #25 Summary & Farewell** Slip days

UC Berkeley EECS Sr Lecturer SOE Dan Garcia

Lab this week is Survey (10:20), online final (1:30)

Register iclicker, then turn in during lab or dis

BJC Art or Poem Submit this at final for extra credit!

OCULUS RIFT, NEXT "IT"?

Facebook's purchase of Oculus Rift is one indication that this is an incredibly HOT potential new technology. Gamers rejoice!

To be considered for Best in Class presentation, your video is due **Saturday!**

Discussion this week is important – course feedback + summary

oculusvr.com

Administrivia: Become active!

- **With-Snap! Exam details**
 - No exam handed out unless you've filled in both HKN + our survey
 - No "study sheets" needed / allowed since you have access to Snap!
- **Final Exam details**
 - Only bring pen(cil)s, three 8.5"x11" handwritten sheets (writing on both sides).
 - Leave backpacks, books, calculators, cells & pagers home!
 - Everyone must take ALL of the final!
 - Bring your "Beauty and Joy of Computing" Art/Poem for extra credit!
- **If you did well in CS10 and want to be on staff?**
 - Usual path: **Lab Assistant** ⇒ **Reader** ⇒ **TA**
 - Indicate on your final survey whether you're even remotely interested
 - We strongly encourage anyone who gets an B or above in the class to follow this path...

UC Berkeley "The Beauty and Joy of Computing": Summary & Farewell (3)

Exciting Future Implications

- **In computing, chronic unsolved problem**
 - Easy parallel programming
- **Implications for apps:**
 - HUGE Computing power available in cell phone, car
 - On-body health monitoring
 - Google + library of congress
- **As devices shrink...**
 - The need for great HCI (human-computer interfaces) critical as ever! (voice, gesture)
- Natural language processing?
- Interact by motion!
- 3D displays?
- Personal Robotics?
- Self-driving cars?
- 3D Printing?
- Optical/quantum computing?
- Personal air vehicle?
- Space travel?
- Computer displays in glasses?
- Flexible displays?
- Smart drones?
- Energy!

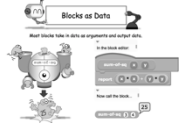

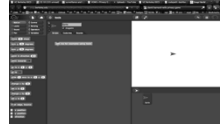

UC Berkeley "The Beauty and Joy of Computing": Summary & Farewell (4)

Taking advantage of Cal Opportunities

- **"The Godfather answers all of life's questions" – Heard in "You've got Mail"**
- **Why are we one of the top Universities in the WORLD?**
 - Research, reseach, research!
 - Whether you want to go to grad school or industry, you need someone to vouch for you!
 - ...as is the case with the Mob
- **Techniques**
 - Find out what you like, do lots of web research (read published papers), hit OH of Prof, show enthusiasm & initiative
- <http://research.berkeley.edu/>
- <http://researchmatch.heroku.com/>

UC Berkeley "The Beauty and Joy of Computing": Summary & Farewell (5)

Dan's Research Projects

- **CS Illustrated**

- **Improve CS10/Snap!**

- **Ensemble**

- **Improve Privacy Teaching**

We'll email class about opportunities this fall...

UC Berkeley "The Beauty and Joy of Computing": Summary & Farewell (7)

Opportunities Next Semester

- **CS61A (1st course in CS major)**
 - Structure and Interpretation of Computer Programs, Python
- **CS9 series (learn a second language)**
 - I would recommend Python next, CS9H
- **GamesCrafters DeCal (Game Theory R & D)**
 - Develop SW, analysis on 2-person games of no chance. (e.g., go, chess, connect-4, nim, etc.)
 - Req: Game Theory / SW Interest
- **MS-DOS X DeCal (Mac Student Developers)**
 - Learn to program Macintoshes.
 - Req: Interest. Owning a mac helps, not required.
- **UCBUGG DeCal (Recreational Graphics)**
 - Develop computer-generated images, animations.
 - Req: 3D interest

UC Berkeley "The Beauty and Joy of Computing": Summary & Farewell (8)

Ok, I'm hooked! Where do I go next?

- **CS Major / Minor**
 - You are here → CS10
- **CS61A**
 - In Python, one big idea every week. Awesome!
- **CS61B**
 - In Java, data structures, algorithms and software engineering (life)
- **CS61C**
 - In C and MIPS, Great ideas in computer architecture (parallelism) ... I teach this!

CS10
 CS61A
 CS61B
 CS61C

UC Berkeley "The Beauty and Joy of Computing" : Summary & Farewell (9)

Review: 5 components of any Computer

In the future, what'll be the most important computer component?

a) Control
 b) Datapath
 c) Memory
 d) Input
 e) Output

UC Berkeley "The Beauty and Joy of Computing" : Summary & Farewell (10)

Peer Instruction Opinion

▪ **"Forget cloning. Forget TVs on your wrist watch. The biggest invention of the next 100 years will be the ability to directly connect your brain to a machine, aka wet computing."** – Dan Garcia

- A macaque monkey at Duke University can already control a robotic arm with thought.
- DARPA interested for mind-control robots & flying
- Virtual Reality achieved with proper I/O interfacing...

 **Jose Carmena**, UCB EECS Prof
 Research: Brain-Machine Interface
www.eecs.berkeley.edu/~carmena/

UC Berkeley "The Beauty and Joy of Computing" : Summary & Farewell (11)

Things to remember from CS10

- **Abstraction**
 - The key idea underpinning all computer science
 - ...and (in CS10) functions, HOFs
- **...From Blown to Bits**
 - Technology has social implications (privacy, energy, copyright, etc); try to see the big picture
 - It also often has unintended consequences!
 - Things are never black or white, pure good or pure evil
- **...From "Program or Be Programmed"**
 - Technology has an explicit and implicit agenda, understanding it is important.
 - Learning to program is empowering (Steve Jobs' video)

UC Berkeley "The Beauty and Joy of Computing" : Summary & Farewell (12)

Penultimate slide: Thanks to the staff!

- (see the course website for listing & photos)

UC Berkeley "The Beauty and Joy of Computing" : Summary & Farewell (13)

The Future for Future Cal Alumni

- **What's The Future?**
- **New Millennium**
 - Always-on internet connectivity + internet of things!
 - AI breakthroughs
 - HCI breakthroughs
 - Post-PC Era (power is in cloud, interface in pocket)

"The best way to predict the future is to invent it"
 – Alan Kay

The Future is up to you!

UC Berkeley "The Beauty and Joy of Computing" : Summary & Farewell (14)
