

Week 5 Student Checklist

Created: Vidya Varadrajan, Fall 2005

Modified: Shong Yin, Spring 2006

Student checklist

- In this week, you will be going to the microlab for a tour of the available tools in the Microfabrication Facility at Cory Hall.
- The Head TA will do Poly-Si depositions on your wafers. Please go through the Detailed Process Flow for Week5: Polysilicon Deposition, to know what is going to be there on your wafer when you come to process your wafers the next time.
